Professional Experience

Web Developer & Graphics Designer

2020-Present

Legit Hub Ltd

Responsibilities:

- Designing, creating and maintaining websites and web applications.
- Working on both the frontend and the backend part of websites (full stack developer)
- Implementation of web security practices including data protection from unauthorized access and handling sensitive information.
- Management of projects in planning, ensuring there is task co-ordination among co workers and meeting deadlines.
- Surfacing creative and responsive designs that adapt well to different screen sizes and devices to give end users a nice customer experience when interacting with the user interface.
- Conduct of software tests to ensure cross-browser compatibility; that the websites work seamlessly across different web browsers.
- Ensuring accuracy and precision in design elements, layout and typography – attention to detail.
- Feedback Incorporation, receiving constructive feedback and making necessary revisions to refine designs
- Staying updated on current design trends and incorporating them when relevant to give our products modern look.
- Being flexible in adapting designs to fit different mediums and formats while maintaining consistency.
- Demonstrating expertise in graphic design software such as adobe creative suit (Photoshop, Illustrator, Indesign) and other relevant tools.

Key Achievements;

- *Successfully completed my android projects including a church app(android) built in java with databases and in app messaging features.*
- *Successfully developed a medium point of sale application in php and mysql database that works efficiently to record sales, profit and receipt generation.*
- *Worked on different backend projects using different approaches, frameworks and languages like python, java, nodejs, php and incorporating different databases like mysql, postgresql, mongodb, firebase etc.*
- *Designing better and interactive logos, posters, banners, stickers, wall papers, wall art murals and professional photo editing.*
